

Help Re-Vitalize Findley Lake

Have you seen and heard about the wall murals that are popping up around the country? Philadelphia provides tours to visit their 3000 murals, while towns from Austin to Boston brag about their street art. Locally, Jamestown's alleys showcase their artwork and Corry and Northeast decorate their town with beautiful paintings.

Community Connections at Findley Lake is proud to partner with local business sponsors for the beginning of Main St. Revitalization. CC@FL's interest has always been to enhance the lives and safety of those in our community. Well, this is one more step in the process. We all know Findley Lake is a great village, so why not help to enhance its beauty?

Not to be outdone, Findley Lake will be getting our first mural. Look at the side of our Fire Department building. That is an amazing 70-foot by 8-foot template for one of the largest murals in the area. It is coming soon!

Attached is a sketch of what the side of our fire department building will become over the next few months. It will start, in a few weeks, with the first 4' x 8' panels being hung.

Local muralist, Ehren Knapp, is the artist. His designs can be seen throughout Erie, Corry and North East.

Funding for this beautification project will be local. Each panel costs \$519.00. Panel 1 will list your name and recognize your sponsorship.

Please make your checks to: Community Connections at Findley Lake and put "mural" in the memo.

Again, only \$519.00 helps to keep "Findley Lake as the coolest little town around."

**The Mural will be fully colorized when completed.*

Thank you!
